

Compliance Package

PRACTICE INDEX

Compliance Package

Features include:

CQC Manager

An ideal way to effectively collate and present all evidence required for the CQC in one central, secure place.

Safety Alerts Manager

Allows you to easily manage, action and distribute CAS alerts to the necessary staff in your practice, with a full audit trail for inspection purposes.

Significant Events Manager

Enables you to record, manage, categorise, distribute and add learning to your significant events.

Complaints Manager

Helps you manage the complaints process from start to finish. You can assign outcomes and create your annual KO41b submissions with ease.

Compliments Manager

A great way to record, manage and share compliments. You can also assign follow up actions to your team in one simple click.

Risk Register Manager

A quick and easy way to record and assess your practice risks, apply ratings and monitor actions, in one central place.

Checks Manager

Create custom checks for your practice, from premises checks to fridge temperature checks. Set checks to repeat automatically and assign checks to be carried out by certain staff members.

To access the Compliance Package simply login to the Practice Index HUB.
