

Basic Life Support, AED and Anaphylaxis for General Practitioners, Dentists & Nurses

COURSE TITLE: Basic Life Support, AED and Anaphylaxis

DESCRIPTION

A course designed to ensure General Practitioners, Dentists and Nurses maintain their clinical skills in respect of Basic Life Support (BLS), Cardio Pulmonary Resuscitation (CPR), Automatic External Defibrillation (AED) and the treatment of Anaphylactic reactions that may occur in the healthcare environment. This course is delivered in a modular approach enabling non-clinical staff to undertake training in the appropriate topics at the same time if required.

DURATION

2 hours consisting of theoretical and practical activities. Shorter durations are available depending on content required.

SYLLABUS

A range of subjects is covered including:

- DRABC
- CPR (Adult/Child/infant)
- The unconscious casualty
- Recovery Position
- Defibrillation (AED)
- Anaphylaxis
- Resus Guidelines 2010

BESPOKE

We can also provide bespoke training courses, or can include additional modules such as: OP Airways, Suction, Oxygen Administration, Choking and Vasovagal episodes in addition to the standard syllabus.

CERTIFICATION

Assessment is ongoing by the instructor, and a certificate will be issued to those who attend the full session and meet the criteria.

INSTRUCTORS

The course is delivered by instructors who have many years experience of teaching and are practitioners in emergency medical services and in particular the administration of CPR and Defibrillation.

NUMBERS

A maximum of 16 delegates can be accommodated per instructor. Larger groups can be catered for, but the ratio must not exceed 16 students per instructor.

LOCATION

We are able to deliver this course on your site, reducing your costs in respect of additional time out and travelling.

AGE LIMIT

Delegates must be a minimum of 18 years of age.
