sector experts

**UNCOMPLICATED ENERGY INNOVATION AND MANAGEMENT**

Customer care delivered the way it should be

## ENERGY FOR THE MEDICAL SECTOR

Reducing energy costs, progressing green agendas and protecting practices against future legislation.

As the LMC Buying Groups Federation's recommended energy consultant, Untied Utilities understand the importance of hassle-free energy management, allowing you to focus on the important task of managing your practice. Since 2002 we've been saving practices money by reducing energy costs, progressing green agendas and protecting practices against future legislation.

Our core commitment is to get you the best possible deal on your energy, whilst your dedicated account manager gives you peace of mind that your practice is taking advantage of modern energy management technologies - as well as ensuring any issues are taken care of quickly and efficiently.

LED Lighting

Nano energy awareness systems

Energy-efficient heating systems

Alternative energy solutions

Don't take our word for it. Here's what our customers say...

*I contacted Untied Utilities who stepped in and took the hassle out of checking price comparisons from us. They were quick, very helpful and assisted me in making cost savings for the practice.*

**Bridgette Guest – Mosborough Health Centre**

## INTELLIGENT ENERGY MONITORING SOLUTIONS

# NETTHINGS®

We've teamed up with NetThings to help monitor your energy usage on a whole new level

With real-time monitoring of energy consumption, our technology platform partner, NetThings, offer finely-tuned building controls and monitoring that is cost effective and flexible. With effortless reporting and easy-to-use equipment, we manage the process from controller and display installation to measuring return on investment.

Did you know...

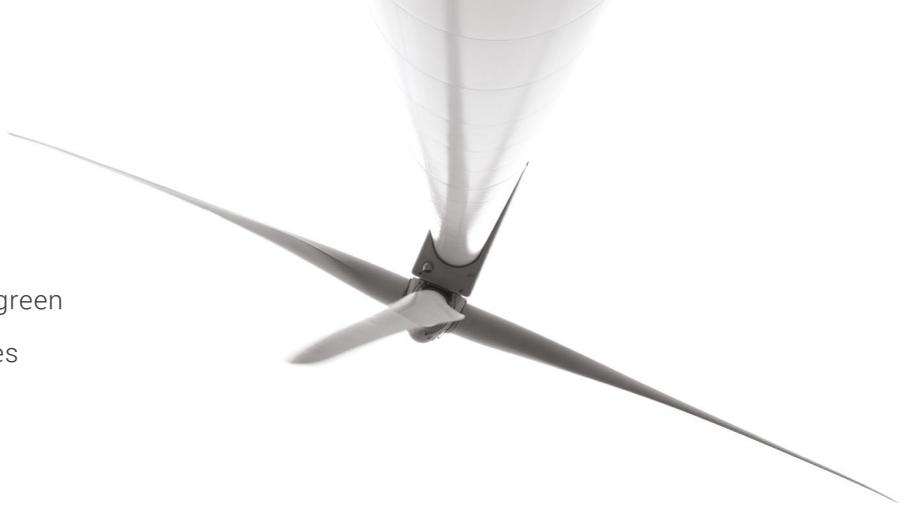

**Approximately 46% of energy is used when a practice is closed.**

Simply through behavioural changes recommended by NetThings, practices can save between 10-16% off their energy bills.

## Alternative energy sources

Because energy generated by wind, wave and solar power do not produce carbon, our renewable solutions are highly effective for green policies, carbon footprint reduction strategies and sustainable commercial energy supply.

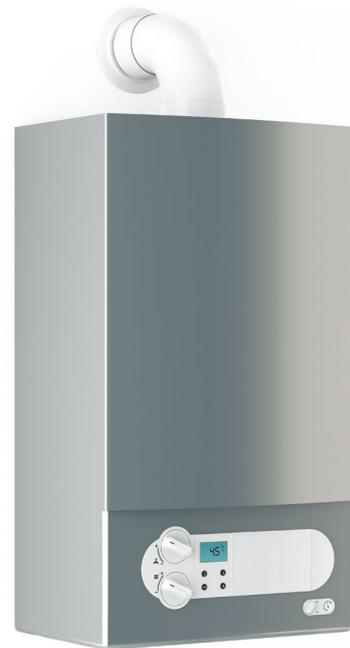

## LED lighting

LEDs are highly efficient and use up to 90% less energy than regular, incandescent light bulbs and therefore offer significant savings. We have partnered with a leading UK manufacturer of LED lighting who share our forward-thinking and resourceful approach to energy efficiency.

## Energy-efficient heating systems

We have developed a partnership with industry-leading boiler manufacturer, Baxi. As part of this we can offer free assessments, expert advice, and install some of the most efficient boilers in the world.

## Experts in legislation

In a world that's more energy aware than ever, legislation is an important area that can effect virtually any public building. As experts in this field, we keep you up-to-date with what you need to know in regards to energy certificates, usage and future legislation.

## EFFORTLESS ENERGY MANAGEMENT

We know how to get you the best deals possible.

With continual development, progress and innovation in one of the fastest moving sectors of our time, energy management has become increasingly complicated.

Coupled with the market's influx of new suppliers and contract negotiator call centres, saturation has added to the complexity of energy management.

We partner with suppliers who balance favourable terms and conditions with competitive tariffs for your ideal energy solution.

As developers of a new approach to energy management, we source the most cost effective tariffs for commercial electricity and gas.

Speak to us about reducing your energy costs

Untied Utilities was formed in 2002 with the vision of providing a tailored approach to energy...

This means we not only focus on securing the best energy prices for our clients, but also act as a consultant on new energy sources, full building solutions, and future legislation. We pride ourselves on our outstanding customer care, and believe we truly go the extra mile in terms of support and guidance.

We don't only contact you at renewal time – we act as your dedicated source for energy management all year round: from simply helping with a billing issue to installing a state-of-the-art energy monitoring system - Untied Utilities are here to take the hassle out of your energy management.

Since our foundation, Untied Utilities has predominantly acted as a dedicated energy consultant for the medical sector. As the approved utilities provider for the LMC Buying Groups Federation, we truly understand the importance of reducing energy usage and maintaining compliance with current and upcoming government legislation.
