

noteSpace™

The Lloyd George record manager

Helping GPs on the paperless journey, noteSpace™ offers simple and secure off-site storage for the 'paper mountain' of Lloyd George Records held by UK General Practice.

What is noteSpace™?

The noteSpace™ service is trusted by GP practices nationally for the secure off-site storage and electronic management of Lloyd George and A4 records.

Specialising in working in partnership with GP practices, over 2 million patient records are securely stored in regional facilities.

The service is proven to quickly and easily enable practices to realise the full potential of their premises.

As an ITK level 3 accredited supplier practices can be assured that Patient Identifiable Data (PID) is securely transmitted across the NHS N3 Network.

Key Features

- Release space for additional services whilst supporting the drive to a paperless NHS.
- Become fully compliant with stringent CQC requirements for records management.
- Save your staff time - auditable records are easier to locate and access.
- NHS approved facilities regional to the practice, records are safe from fire and flood damage.
- A fully managed, inclusive service that includes the delivery to and collection of hard copy records from your practice, on a weekly basis. Records can also be requested electronically.

New build, extension or redesigning your practice?

- Have you considered the possibilities if valuable space is not allocated to storing Lloyd George and A4 records?
- Generate revenue with new Clinical Rooms and by offering additional services.
- Improve patient access and waiting areas.
- Improve working conditions and facilities for your team.

"We have been using noteSpace™ for more than 3 years and have found the whole process from initial collection of notes into storage to the ongoing day-to-day management, very professional and well organised.

I would not hesitate in recommending noteSpace to any surgeries considering undertaking this project."

Mandy Shaw, Head of Compliance & Governance, Your Health Partnership
