

# no argument!

## Why call recording is critical for your practice

£2,999 or  
£1.65 per day  
(7 year lease /  
4 line call recorder)

- Are you providing a Triage service?
- How do you record important information?
- Is your practice insurance sky high?
- Can you prevent costly disputes and litigation?
- Can you prove correct medical advice is given?
- Can you protect your employees against verbal abuse?
- Are staff demoralised by abusive patients?

### Professional protection

Recording your telephone calls is the answer. It's become a valuable and effective tool in the drive to improve efficiency and protect against costly disputes in many surgeries, hospitals and even the Blood Transfusion Service.

### Complete peace of mind

- FREE consultation
- Unlimited helpdesk support
- Satisfaction guaranteed, a product exchange or your money back (see reverse page for complete product specification).
