DOING MORE WITH SPEECH

PROVIDING THE SOLUTION

With the ever increasing pressures to provide more for less, the need to deliver innovative cost and time saving solutions has never been so high on the healthcare agenda. Quick, accurate and efficient clinical correspondence is a must.

With over 15 years' experience in the field, here at G2 Speech we understand your needs and expectations. We are constantly developing innovative solutions that cover all of your digital dictation and workflow management requirements. We understand the challenges that healthcare professionals face and we are passionate about creating solutions tailored around you.

TACKLING YOUR CHALLENGES, TOGETHER

Around a third of hospitals still use analogue tapes to produce medical letters. Analogue tapes are time consuming and expensive to transcribe. The result of using this dated technology is huge bottlenecks in clinical correspondence and delays. All of which potentially make it harder to get patients seen and cared for in a quick and efficient manner.

We understand the challenges you are faced with and we believe that technology plays an integral role in becoming more efficient, improving patient safety and reducing bottlenecks.

Dr Rob Landers, Clinical Director at Waterford Regional Hospital

"Working with G2 Speech has been a very positive experience...I would compliment them highly on their after-sales support and service. Their medical expertise shows through straightaway. These can be complex working environments and they understand what we do and how things need to happen."

Reduce turnaround times

Increase efficiency

Improve patient care

DICTION & SPEECH RECOGNITION PRODUCTS FOR GPs, HOSPITALS & NHS TRUSTS

Are you looking for a way to increase your productivity, to communicate easily with your team and to shorten the time you spend on reporting? Our products have it all.

Working with G2 Speech you can benefit from:

- Flawless dictation & transcription
- Easy-to-use technology, tailored around you
- Simple integrations
- A management tool to keep track of workloads and productivity
- Proven return on investment
- Expert knowledge and experience.

MAJOR BENEFITS TO PATIENT SAFETY AND CARE

We recognise the importance of patient safety to clinicians. Errors, such as patient letters getting delayed or lost, need to be eradicated. Our product will ensure quicker correspondence, a secure platform to input and store information and will release administrative time for patient care.

COST SAVINGS

At a time when efficiencies savings are at the top of everyone's agenda, we understand the importance of saving you money.

We have worked with various trusts over the years and have seen some significant cost savings made as a result. One trust achieved their target savings of £3.5m over the first five years of working with G2 Speech and £1.1m per year thereafter.

Christine Walters, Associate Director of IM&T at The Pennine Acute Hospitals NHS Trust works with G2 Speech in her current role and has previously worked with us in her role at Salford Royal NHS Foundation Trust. She introduced the product in her organisation after having great experiences working with our product and team of employees.

"The solution has been completely reliable and does exactly what it says on the tin. The reports are very useful and our doctors and secretaries find the system really easy and clear to use. We've received some really positive feedback about the software not only from the staff accessing the product but from a patient that had noticed a difference too."

PROVIDING MORE FOR LESS

Our software will be fully configured to work around your existing workflow requirements. Together we can streamline process steps and reduce laborious manual tasks. Our products can support small teams to full trustwide integrations. We offer the complete workflow solution to meet your needs. With the help of our products, the impossible of providing more for less becomes attainable. Our workflow management systems and efficient digital dictation and speech recognition software can support you do just that. Our products have been developed around individuals like you to help simplify workloads and increase productivity.

REDUCING TIME PRESSURES AND BACKLOGS

From hospitals to small medical practices, healthcare providers across the country struggle with bottlenecks of clinical correspondence. We can help you streamline your bottlenecks with our easily integrated product.

Northumbria Healthcare NHS Foundation Trust started working with G2 Speech in 2005 and now has over eight years' experience of working with the company.

Jackie Proudfoot, System Manager at Northumbria Healthcare NHS Foundation Trust

"When we first started working with G2 Speech we had some big ambitions! We wanted to reduce turnaround times on producing documents from 13 weeks to just 7 days. It was a huge challenge but with the help of the professional, friendly staff at G2 Speech, we managed it."

EASY-TO-USE SOLUTIONS

We recognise the importance of providing our users with thorough training so that they feel confident using our software. Our products are extremely accessible and simple to integrate, meaning minimum disruption to the workplace.

Zoe Clare, Band 6 Physiotherapist at Northumbria Healthcare NHS Foundation Trust

"The software is very easy-to-use and makes it so much easier and more efficient to complete letters in a timely and effective way."

ABOUT G2 SPEECH

G2 Speech was founded in 1998. Over the 15 years we have been established, we have polished and perfected the art of providing digital dictation, speech recognition and workflow management solutions that fit the needs of our customers. We successfully provide our products in the UK, Ireland, Belgium and Holland. Within the UK we currently deliver solutions to over 35 major NHS Trusts. Globally we have around 25,000 users accessing our product every day.
