"You're a star"

Susan Harrison, Whitley Bay

"All of your locums are excellent, I don't know where you find them"

Sue Elsbury, Stanley Health Centre

Primary Locums I have had the pleasure of being introduced to this friendly, efficient, life saving company over 6 years ago

Dallas Hitchinson, Park Surgery Hebburn

I would just like to say that working with Primary Care locums is a definite privilege. All of the team are very helpful and are always available and make me feel very much part of their team. Every time I need to contact the Agency, I can always get to speak to someone who is always happy to help. I can honestly say that I was referred to primary care locums with the words that they were good employers to work for and I now know that this is definitely true. They have been excellent to work with and I would not hesitate to refer anyone who wanted to join them. Hayley, Louise and Elaine have been a great support and have been wonderful !! I want you all to know how greatly appreciated you all are.

Kath Cunningham Practice Nurse

I have worked with Primary Locums for nearly ten years now (OMG Louise! how did that happen!!???) They are a small team so you always know who you are dealing with which means they know how you work and therefore which practices are best to send you to. It's always easy to arrange work and they are always there to help if there are any problems. Because you are employed directly by the practice you can remain in the NHS Pension scheme which I feel is a major advantage over the other more commercial agencies.

Dr Joanne Austin, GP Locum

"What I like most about the primary locums is that I feel the friendly and dynamic team of staff put the doctors and clients as their first priority. Combination of professionalism and morals in this team cheers me up. Highly recommended!"

Dr M Dashti, GP Locum
