

# **JPen Medical...** Committed to helping you achieve good and outstanding regulatory inspection outcomes.

## **HELPING YOU ACHIEVE GOOD AND OUTSTANDING CQC, CI AND CSSIW INSPECTION OUTCOMES**

Supporting vital regulatory inspection and audit preparation. Maintaining equipment quality and safety for good and outstanding surgeries.

Our dedicated solution package gives you complete support whilst you prepare for and then maintain a good or outstanding regulatory body inspection rating.

JPen's services and certification helps you evidence robust management of equipment safety, reliability and efficacy.

That way, medical equipment used by and for your patient population groups will be safe, maintained and fit for purpose.

## **JPEN MEDICAL'S COMPREHENSIVE SOLUTION GIVES YOUR SURGERY PEACE OF MIND.**

- Peace of mind that your Surgery's medical equipment meets vital quality and safety standards expected by the CQC, CI or CSSIW
- Peace of mind that a trusted and specialist medical equipment safety business is partnered with you on the journey to good and outstanding
- Peace of mind knowing that one service provider can provide everything you need for equipment safety
- And peace of mind knowing your Surgery's equipment safety testing costs are controlled for three years

SPECIALISTS IN HEALTHCARE

| Equipment safety information alerts & technical helpline   |                |                                |

Our package is delivered over a three year period. Why? Because in our experience, this timescale works well for both Surgeries rated good/outstanding as well as for those dealing with 'inadequate' or 'improvement recommended' ratings.

Our package helps good or outstanding Surgeries to maintain this quality rating.

Our package is also designed to help Surgeries with lower ratings to significantly improve their quality of service.
